

Team Building

The Long Beach Sailing Foundation's fleet of Catalina 37s, along with their ideal location at Long Beach Yacht Club, creates a one-of-a-kind destination venue for large-scale team building and charity fundraising events. In partnership with our team-building event provider, SmithREgroup, LLC, the Foundation can provide customized team-building events, regattas, corporate retreats, and charity fundraising events centered around a day of sailing, racing, or specific team-building exercises on the water aboard our fleet of 11 Catalina 37s.

With a typical setup of 6 participants and two professional coaches on each boat, an event can be structured for groups of 6-80 participants or more, if you also wish to include spectators. A typical day begins with a continental breakfast and a chalk talk, introducing the basics of sailing. Once you're on the water, a specific program can be tailored to your individual group's requirements, including basic sailing, entry-level racing, match racing, and full-blown regattas, which can become very competitive between company divisions or work groups.
